POSTER PRESENTATIONS

(The presenter is underlined)  (T) indicates a Trainee poster

Posters P1 – P88 are published in the IJOA meeting Supplement

P.1  (T) Changes in rotational thromboelastometry (ROTEM) parameters during the first, second and third trimesters of pregnancy  
F Bowden, A Bhalla, S Kelly, F Hayat, P Edmonson, H McNamara, P Barclay, C Chevannes, S Mallaiah

P.2  Closed-loop feedback computer-controlled phenylephrine for maintenance of blood pressure during spinal anaesthesia for caesarean section: randomized comparison of automated boluses versus infusion  
WD Ngea Kee, YH Tam, KS Khaw, FF Ng, SW Lee

P.3  (T) Codeine for postnatal analgesia: friend or foe? A re-audit of post caesarean section pain control following MHRA guidance  
V Bell, T Petty, C Laxton

P.4  (T) Emergency drugs in obstetric anaesthesia: a quick reference guide  
L Emmett, R Harris, I Hassan, J Tozer

P.5  Pulmonary aspiration during pregnancy or immediately postpartum in the UK: a two-year national descriptive study  
M Knight, D Bogod, DN Lucas, A Quinn, JJ Kurinczuk

P.6  (T) Reducing spinal hypotension during caesarean delivery with glycopyrrolate: a meta-analysis  
SD Patel, AS Habib, S Sodha, B Carvalho, P Sultan

P.7  Regional variation in the use of de novo regional anaesthesia for caesarean delivery  
PM Barclay, LH Nyman

P.8  The association between maternal size and outcomes for women undergoing for caesarean section: a multicentre prospective observational study (The MUM SIZE Study)  
AT Dennis, K Lamb, M Tew, K Dalziel, P Clarke, J Lew, D Story, A Parker, G Teale, S Simmons, D Casalaz

P.9  (T) The effects of audit and research in postpartum haemorrhage: benefits for all!  
T Moses, D Leslie, SF Bell, RE Collis

P.10  (T) Unforeseen benefits of an enhanced recovery programme for elective caesarean section on postoperative length of stay after emergency caesarean section  
SE King, SS Kumar, JH Francis

P.11  (T) Anaesthesia for abnormally invasive placenta  
NJ Taylor, R Russell

P.12  (T) Carbetocin for elective caesarean delivery: impact on use of second-line uterotonics  
LS Meshykhli, M Nel, C Papageorgiou

P.13  (T) Carbetocin use following caesarean section: a clinical audit of current practice  
P Reide, J McEwan, D Growcott

P.14  (T) Incidence of and factors associated with severe postpartum haemorrhage after elective caesarean section in a UK tertiary hospital  
M Rabie, S Sebastian, J Edwards

P.15  (T) Interventional radiology procedures for emergency and elective obstetric cases: a reduction in blood loss versus potential complications. WITHDRAWN  
K Livingstone, B McCreath, A Jenkins

P.16  Major obstetric haemorrhage management in placental pathology cases  
K Livingstone, E McGrady

P.17  (T) Management of postpartum haemorrhage related anaemia with ferric carboxymaltose  
TA Cope, CJ Ralph

P.18  Postpartum haemorrhage: is it nice to follow NICE?  
Z Gaballa, S Sukumaran, P Rose, R Harris
P.19 (T) A review of maternal sepsis care admissions in a tertiary hospital over three years: can we do better?
K Richardson, K Grailey, S Wray

P.20 (T) Accidental dural puncture in a large tertiary obstetric department: quality improvement of services, patient follow-up and outcomes over the course of one full year
KL Pearson, S Chapman, L Dubiel

P.21 (T) Audit of enoxaparin prescription (timing and dose) post caesarean section
B Oz McAlary, E O’Kane, R Laird

P.22 (T) Does the dural puncture rate change whilst trainees learn to perform obstetric epidurals?
JA Fasham, EJ Drake, J Coghill, JR Sneyd

P.23 (T) Epidural test dose in obstetric population in the presence of a dural breach: a case series
RP Kaur, S Gowrie-Mohan, K King, N Goetze

P.24 (T) Failed intubations in obstetric anaesthesia: patient or staff factors?
RL Freedman, S Paramanathan, DN Lucas, PN Robinson

P.25 (T) Making the Sepsis Six count on a high-risk pregnancy unit, delivering an improvement in sepsis care
N Pritchard, S Wray, K Richardson, K Grailey, S Montes

P.26 (T) The development of a protocolised pathway and checklist for the management of post-dural puncture headache following an audit of current practice
S Bampoe, M Butcher, E Evans

P.27 (T) Anaesthesia for category 1 caesarean section: time for a top-up?
D Leslie, R Jones, M Oliver

P.28 (T) Categorisation of caesarean section: a difference of opinion?
MD Heald, KE Cullis

P.29 (T) Category 1 urgency within the Robson caesarean section groups: a pilot study
S Tetlow, SM Kinsella, E Treloar

P.30 (T) Do we need routine anti-emetics as part of an enhanced recovery bundle following elective caesarean section?
R Hart, S Hannah, C Greenhalgh

P.31 Immediate birth: an analysis of women undergoing time critical birth in a tertiary referral obstetric hospital
M Warren, J Kamanja, AT Dennis

P.32 (T) Impact of anaesthetic technique on regional anaesthesia to general anaesthesia conversion rate for elective caesarean section: an audit standard
K Ayub, N Patel, A Stewart, R Bell

P.33 (T) Is mean body temperature a cause of shivering during elective caesarean section under spinal anaesthesia? A pilot study
CJ Mullington, RE Bartlett, JE Terry, DA Low, PH Strutton, S Malhotra

P.34 (T) Patient perspectives of enhanced recovery: the development of a 'patient passport' and an evaluation of its impact on mothers' experiences
K Dua, S Bampoe, E Evans

P.35 (T) Switching to propofol for general anaesthetic caesarean section: one institution's experience
CA Battle, NA Muchatuta

P.36 (T) A four year review of eclampsia managed in the intensive care unit: lessons learnt
AU Otegbeye, OK Idowu

P.37 (T) Anaesthetic management of twin deliveries at a tertiary care centre: a service provision project
N Hyndman, M Molloy

P.38 Analgesic requirements and pain experience after caesarean section under neuraxial anaesthesia in women with preeclampsia
AT Dennis, S Mulligan
P.59  (T) Survey on consent and counselling following blood transfusion under general anaesthesia in obstetrics
P Stevens, R Swanton

P.60  The impact of NAP5 on obstetric anaesthesia: an OAA approved UK survey
SD Patel, M Columb, YM Liu, R Fernando

P.61  (T) Uptake of influenza vaccination by labour ward staff
AH Carter, A Dawson, SM Yentis

P.62  (T) Development of a labour ward teaching programme for the use of ultrasound for central neuraxial blockade
B Bellew, P Kamath, S Nizar, V Sodhi

P.63  (T) Flow characteristics of Luer/non-Luer spinal needles
RS Monteiro, A Pillai, SW Choi, D Bogod, SM Yentis

P.64  (T) GlideScope® video laryngoscopy is better than direct laryngoscopy in a simulated difficult obstetric airway
A Kurvey, V Betharia, G McNamara, A Bewlay, M Pimblett, K Scullian

P.65  (T) Impact of changing from 16- to 18-gauge Tuohy needles for labour analgesia in a large district general hospital
D Helme, A Roberts, J Stevens, P Richardson, E Morgan

P.66  (T) Inadvertent perioperative hypothermia in obstetric theatres: a complete audit cycle
R Chebbout, RS Newton, MJ Woolnough

P.67  (T) LockIt Plus reduces the rate of failed epidural analgesia and increases maternal satisfaction
S Bampoe, PM Odor, C Johnston, E Evans

P.68  (T) Minimal benefit of cell salvage with estimated blood loss of less than one litre at caesarean section: a service evaluation in a tertiary centre
S Yeung, V Karthikeyan, I Wrench

P.69  (T) Pre-puncture ultrasound imaging of the lumbar region in elective caesarean section cases
K Suri Mohanram, M Tennant, S Pokhrel

P.70  (T) Spread of a pump delivered epidural bolus compared to a manual syringe bolus
M Fleet, P Kamath, JP Campbell, GM Stocks

P.71  (T) Waiting for CSF: how long is enough?
RS Monteiro, M Cox, SM Yentis

P.72  (T) A repeat audit of parturients desire for information about rare complications of regional anaesthesia
EV Plunkett, K Cullis

P.73  An evaluation of postpartum analgesia requirements: development of pre-packaged discharge analgesia for enhanced recovery
TW Ng, R Mangwiro, CK Rajani, N Patel

P.74  (T) Anaesthetic involvement in provision of second trimester medical termination of pregnancy
A Abu-Arafeh, A Wise

P.75  (T) Comparing need for anaesthetist-assisted boluses between patient-controlled epidural analgesia and midwife-led top-ups: midwives do it better than machines
SNizar, K Richardson, S Kale, GM Stocks

P.76  (T) Evaluation of the use of remifentanil patient-controlled analgesia at the Simpson’s Centre for Reproductive Health between June 2011 and October 2014
A Wise, MV Thomas

P.77  (T) High- versus low-dose transversus abdominis plane block for analgesia post-caesarean delivery: a meta-analysis
S Sodha, AS Habib, S Ng, B Carvalho, P Sultan

P.78  (T) Maternal mobility and epidural analgesia satisfaction with programme intermittent bolus
SD Balakrishnan, A Philips
P.79  (T) Postoperative analgesia for elective caesarean section with oral diclofenac or ibuprofen: steps to improve analgesia as part of an enhanced recovery package
N Ungureanu, A Azhar, K Cullis

P.80  (T) A case of perimortem caesarean section with survival following out of hospital cardiac arrest
J Murley, P Mallett, B Anigbogu, R Smith, J Nortje, M Morosan

P.81  (T) Acute aortic syndrome in pregnancy: endovascular management
CV Collinson, A Milne, G Morrison, C Love, N Palaniappan

P.82  Dural puncture: a pain in the neck with cervical radiculopathy but no headache
GV Crossingham

P.83  (T) Seizures in the paralysed parturient: eclampsia or autonomic dysreflexia?
B Hockenhull, J Dyer, J Goude

P.84  (T) Severe headache after neuraxial analgesia
CH Malcolm, M Ochoa-Ferraro, J Corfe

P.85  (T) Thrombotic thrombocytopenic purpura in pregnancy: a diagnostic emergency
C Bryant, M Drake, C McLintock, L Hughes

P.86  (T) Undiagnosed idiopathic syringomyelia and failed spinal and epidural: causation or coincidence?
J Lewis, I Saule

P.87  (T) Massive thrombus and cardiac arrest during elective caesarean section
KA Holdom, E Hartsilver

P.88  (T) Use of ultrasound guidance for epidural blood patch following unintentional dural puncture
Z Hajat, VJ Wilson, F Roberts

P.89  A seven-year review of obstetric patients delivering at a tertiary cardiac centre
O Lubeigt, R Jadhav, B Reeve

P.90  (T) An audit cycle on written information for labour epidurals: are we offering it? WITHDRAWN:
E Brodkin, S Wintle, R Coathup, N Hooker

P.91  (T) Antenatal raised BMI clinic: patient feedback on a multidisciplinary approach to tackling obesity in pregnancy.
N Pritchard, M Mirza, F Austin, H Gibson

P.92  (T) Change in obstetric anaesthesia practice after NAP 5: Irish perspective
S Nair, I Browne

P.93  (T) Failed intubation at caesarean section - what does the mother want us to do?
R Ford, A J Eldridge

P.94  (T) Frequently asked questions: supporting non-obstetric anaesthetic colleagues on labour ward. WITHDRAWN
N Pritchard, M Razzaque, S Wray

P.95  (T) Massive obstetric haemorrhage simulation
NA Stewart, H Murdoch, J Cornes

P.96  Maternal collapse during caesarean section secondary to undiagnosed mitral regurgitation
H Aladin, MA Arshad, D Weerasena, A Warwick, A Downs

P.97  Non-pharmacological management of major obstetric haemorrhage (MOH)
K Livingstone, E McGrady

P.98  (T) Preventing accidental dural puncture - the stop before you pop project
A Bewlay, R Harris
P.99 The pharmacological management of uterine atony in major obstetric haemorrhage (MOH)
K Livingstone, E McGrady

P.100 (T) Whatsapp™ - An e-forum for debate and case based discussion assessment
E Plunkett, J Kerr

P.101 (T) An on-going audit of anaesthetist's response times for intrapartum analgesia in a large maternity unit
M Rabie, J Allt, A Hasan, A Behura, B Sridhar

P.102 Crossing borders with an innovative epidural information film: our experience
M Butcher, E Evans, C Johnston

P.103 (T) Evaluation of patient knowledge of analgesia for labour and the availability of written information
LJ Downing, J Holland, U Carabine

P.104 (T) Labour analgesia: An audit of epidural response times
ZA Fazel, G Massolini

P.105 (T) Maternal pyrexia and neonatal outcomes following epidural analgesia.
SC Monks, A Hassan, K Bhatia

P.106 Relation between labour pain relief methods, postpartum depression, satisfaction with labour and labour analgesia for primiparous parturients. WITHDRAWN
R Kucinskaite , V Baluiliene, L Grauslyte, A Zavackiene , A Macas , K Rimaitis

P.107 (T) Response times for provision of labour epidural analgesia: a re-audit
P Mehrotra, R Steele, I Saule

P.108 Test dose for obstetric epidural anaesthesia - Are we teaching it correctly?
J Pettit, A Waite

P.109 (T) Audit of efficacy of postoperative acute pain management for elective LSCS under spinal anaesthesia
DK Meessala, H Kathuria

P.110 Audit of patient satisfaction with self administration of medicines and length of stay in maternity
Smita Gohil, Tejal Kothari

P.111 (T) Evaluation of urinary catheter removal and mobilisation following elective caesarean section: breaking barriers to enhanced recovery
A Azhar, N Ungureanu, K Cullis

P.112 (T) Fasting times, ketonuria and length of hospital stay before and after the introduction of an enhanced recovery programme for elective caesarean sections
R Vlies, F Bowden, E Christie, P Edmondson, R Myagerimath, H Makim, H McNamara, C Grassmann

P.113 (T) Increasing use of enhanced recovery for obstetric surgery in the UK- a survey and national statistics
W Low, I Wrench

P.114 (T) Pre-loaded to improve experience, satisfaction and starvation for patients undergoing caesarean section
MH Davies, AJ Downs

P.115 (T) Prevention of peri-operative hypothermia in elective caesarean section
S Denning, J Lewis, R Lawton

P.116 (T) Re-audit of category 4 LSCS. Enhanced recovery: simply introducing the idea enhances the process
L K Kessack, S Choudhury, G Bostock, J W Broadway

P.117 (T) An audit of decision to delivery times in emergency caesarean sections
H Wang, V Betharia, A Bewlay

P.118 (T) Caesarean section anaesthesia: technique and failure rate
J English, H McNamara
P.119  (T) Category 1 delivery times, mode of anaesthesia and associated APGAR scores. WITHDRAWN
G Wong, H Gooneratne
P.120  (T) General anaesthesia for caesarean section: a survey of regional practice
E Plunkett, J Mackie, J Marriott
P.121  (T) Maternal and foetal outcomes following propofol anaesthesia for emergency caesarean section
TH Pratt, RA Isaacs
P.122  (T) Multidisciplinary algorithm for category 1 caesarean sections; a collaborative service improvement
H Murray, K Johnston, S McGuirk
P.123  (T) Ranitidine in obstetrics: auditing a successful patient safety initiative
D Ferris, K Maclellan
P.124  (T) Trends in anaesthetic technique for Caesareans: a 12 year continuous audit experience. WITHDRAWN
Gediminas Juknevicius, M Purva
P.125  (T) A review of current skin-to-skin practice following elective caesarean section
J Overend, C Taylor, J Longbottom
P.126  (T) An audit of analgesic delivery following caesarean section: four years of data and change
A Hartopp, S Sanusi, S Armstrong, H Dodwell, H Williams, S Milewczyk
P.127  (T) An audit on timing of anticoagulation post caesarean section under regional anaesthesia.
GGK Rangaswamy, M Tennant
P.128  Availability of appropriate staff and equipment in recovery area at the end of obstetric theatre cases
S W Sooriarachchi, H Kaye
P.129  (T) Effect of pre-spinal non-invasive blood pressure management in caesarean section on incidence and magnitude of hypotension
T Orr, I Wrench
P.130  Facilitating skin to skin contact in Obstetric Theatre
KMR Arrow, P Higgins, S Manning, G Campbell
P.131  (T) Patient satisfaction post caesarean section
A Gilbert, R Leslie, C Battle, M Eveleigh, W Headdon, A Jonas, N Kellie, R Williams, N Wharton
P.132  (T) Skin to skin practice during elective caesarean section in a tertiary hospital
Louise Swan, Kavitha Manoharan, Claire Williams
P.133  (T) A case report of changes in morphology of the pulse oximeter waveform following spinal anaesthesia for caesarean section
W Low, R Chebbout, M Reeves, J Healey, I Wrench
P.134  (T) 'By failing to prepare, you are preparing to fail': the perfect spinal tray setup
D Leslie, G Keightley, MR Stacey
P.135  Could point of care testing improve haematological management in major obstetric haemorrhage?
RS Newton, F Roberts, S Glover, B Kasa, S Aluri
P.136  (T) Epidural analgesia following elective caesarean section under combined spinal epidural: a service evaluation
H Collett, CJ Mullington, JK Bray
P.137  (T) If you start cold you end up cold. An audit on evaluation of Hotdog patient warming devices
D Verma, K Maclellan
P.138  (T) Restructuring our obstetric airway trolleys in line with new OAA/DAS guidance
KC Horner, P Kamath, SA Kirby
(T) TEG (thromboelastography) analysis algorithm in bleeding parturients for management of haemostasis  
D Verma, P Kochhar

(T) To wash or not to wash? That is the question. An audit to investigate whether washing of surgical swabs increases the return from cell salvage.  
SMC Kelly, F Hayat, M Dunham, P Yoxall

A prospective analysis of critical care provision in Maternity HDU.  
R Hart, J Gardner, K Lake, R Fulton, K Litchfield

Defining a reference range for vital signs in healthy term pregnant women undergoing caesarean section  
AT Dennis, L Hardy

Five years of morbidly adherent placenta cases  
R S Newton, M J Woolnough

(T) Obstetric outcomes in the super morbidly obese patients  
J Davis, P Sandbach, S Masheter

(T) Service evaluation on the management of post partum haemorrhage in anaemia and low body weight parturients  
Modhar Mahmoud, Anu Philips

The cardiac obstetric anaesthesia team (COAT) model – A multidisciplinary approach in the management of obstetric cardiac patients at a tertiary obstetric centre  
K Bhatia, S Vause, A Roberts, B Clarke

(T) The influence of patient body mass index (BMI) on the occurrence and severity of intrathecal diamorphine related pruritus  
K Livingstone, R Clarke, E MacDonald, E McGrady

(T) Trends in critical care admissions (2010-2015)  
CL Halligan, G Keightly, S Bell

An iOS app template for the distribution of standard operating procedures to anaesthetic staff  
H Saumtally, F Walsh

(T) Can't sim, won't sim - simulation in obstetrics: perceived barriers to participation by multidisciplinary teams  
CSA Pritchett, H King, Z Nelson, R Langford, A Cripps, G Meredith, S Harris

(T) Educating the multi-disciplinary team on the new obstetric difficult airway guidelines  
J A Fasham, G Crossingham, E J Drake, C Hoyer

How comfortable are our midwives in delivering maternal enhanced critical care?  
R Hart, K Lake, K Litchfield

(T) Improving midwife knowledge and confidence through use of an epidural teaching workshop  
SA Hannah, Ravi Agaram

(T) Information overload! Patient positioning for neuraxial anaesthesia  
A Sturmev, O Chambers, H McNamara

(T) Initial assessment of obstetric anaesthesia: are 20 sessions enough?  
JA Gwinnutt, J Sadashivaiah, A Arch

(T) What information did mothers get? A post emergency caesarean section survey  
AC Robertson, K Roberts, F Eljelani, U Misra

(T) A literature review of high spinals in obstetric anaesthesia  
RL Freedman, OH Clancy, PN Robinson, DN Lucas

(T) An audit of the assessment & follow-up management of headache in parturients  
T Mahendrayogam, K So, W S V Lam, A Surendran
P.159  (T) Back to the future? Intrathecal morphine & time to analgesia post caesarean section: a baseline evaluation
CSA Pritchett, H King, S Banks

P.160  (T) Intrapartum prophylaxis of post-partum haemorrhage: an audit of anaesthetists’ practice in operative deliveries in theatre
CE Adams, G Peters

P.161  (T) Intrathecal opioids for caesarean section: an audit of post operative monitoring to improve patient safety
P Thomas, J Hackney, R Goyal

P.162  Introduction of an epidural insertion bundle and quality improvement strategy to reduce accidental dural puncture and post dural puncture headache in parturients.
R Hart, A Stark, M Broom

P.163  (T) Major obstetric haemorrhage: an audit of antenatal anaemia and blood transfusion
A Klobas, I Browne, A Moynihan

P.164  Starvation and ketonuria during labour
H Eid, N Aldamluji, K Maclennan

P.165  (T) "Progressive" subarachnoid block in an achondroplastic dwarf for caesarean section
CC Cruz, S Franco, P Paredes

P.166  (T) Anaesthesia for elective caesarean section in a patient with active Guillain-Barre syndrome
N Ungureanu, J Kerr

P.167  (T) Delivery at any cost in complex cases? The peripartum management of a patient with severe von Willebrand disease type 3 with von Willebrand inhibitor
D Verma, A Ochana, P Kochhar

P.168  (T) Not plugging the hole: NSAIDs to blame?
P Mehrotra, J Lewis, D Levy

P.169  (T) Peripartum management of long QT syndrome: taking the initiative as the anaesthetist
S Zhang, M Doraismwami

P.170  (T) The use of noradrenaline for spinal-induced hypotension during caesarean section in a parturient with severe pulmonary regurgitation
EJ Wighton, C Elton

P.171  (T) Valsalva maneuver mediated Hamman's syndrome in the parturient: a case report. WITHDRAWN
A Buckley, P Popham

P.172  (T) Where’s the baby? Anaesthetic management of an advanced abdominal pregnancy (AAP)
R Jones, G Keightley, A Theron, S Bell

P.173  (T) A Review of anaesthesia for instrumental delivery (RAID). WITHDRAWN
D R Price

P.174  (T) An adapted WHO checklist for category 1 delivery - as easy as ABC
CL Ivermee, J Moore, E Evans

P.175  (T) Anaesthetic charts- does one size fit all?
A Eales, R Chatterjee, E Evans

P.176  (T) Epidural block documentation - What do we really need to know?
K Grailey, K Richardson, N Usman

P.177  (T) Handover of responsibility of patients in the obstetric post anaesthetic care unit (PACU)
NJ Rendell, RL Smith

P.178  (T) Improving postnatal visits with a focus on complications and patient satisfaction
JD Holland, S McGuirk
P.179  (T) Improving theatre utilisation, flow and team-working through simple intervention
MH Davies, RJ Pierson

P.180  Modification of World Health Organisation surgical safety checklist for category 1
caesarean section
R Vlies, H McNamara
